Summary

The Overview of the Communes is an annual publication of the Austrian Central Statistical Office. It comprises a register of the communes according to their place in the administrative subdivisions of Austria (federal provinces and administrative districts). It contains the names of more than 2,300 communes of Austria in their latest spelling and with the codes of the Austrian Central Statistical Office that are not only used in the official gazetteer of Austria and the newer sheets of the Official Map 1:50,000 but also by many administrative- and planning-institutions throughout the country. It also contains the number of inhabitants of each commune and administrative subdivision according to the latest population-census (in this case, 1981) and the postcodes of the municipal offices.

The second part of the publication contains an alphabetic register of the communes together with their codes.

This overview can be used as a key-register for the Map of the Administrative Borders of the Republic of Austria 1:500,000 by means of the codes. This map is also published annually by the Austrian Central Statistical Office. (A specimen showing one section of the Map of 1991 is attached.)
